

Where to go to take care of your child's health

The words **we** and **us** in this book mean Canberra Health Services.

Hard words

This book has some hard words.

The first time we write a hard word

- the word is in **blue**
- we write what the hard word means.

You can get help with this book

You can get someone to help you

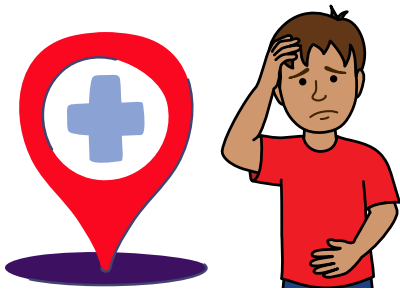

- read this book
- know what this book is about
- find more information.

About this book

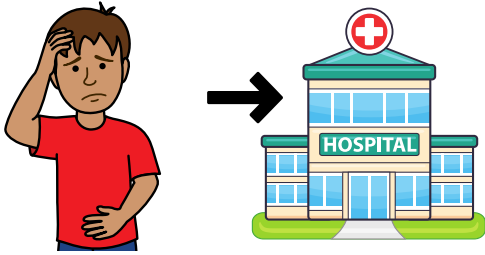

This book was written by Canberra Health Services.

This book was written to show you where you can go to take care of your child's health.

You can go to the emergency department

If your child is very sick or hurt then they might need to go to the hospital right away.

To get to the hospital right away you should call 000 or go to the **emergency department**.

The emergency department is a part of the hospital that has doctors and nurses who can see your child quickly after you get there.

You should call 000 or go to the emergency department if your child

- cannot breathe

- has pain in their chest

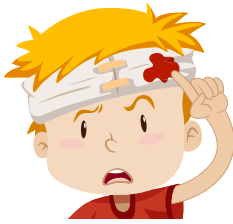

- is very hurt

You can go to the emergency department

You should call 000 or go to the emergency department if your child

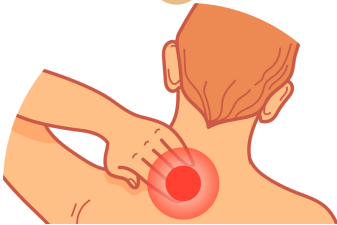

- has an **allergic reaction**

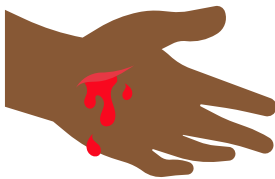

- has hurt their head

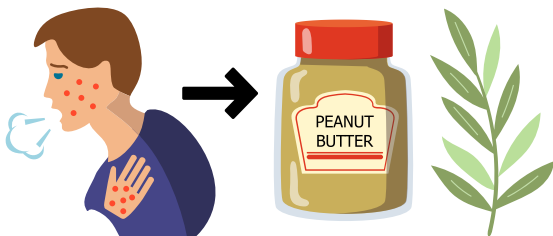

- has hurt their eye

- has hurt their neck

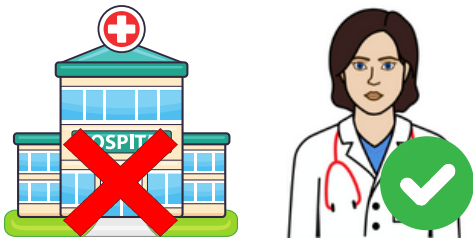

- has bleeding that will not stop.

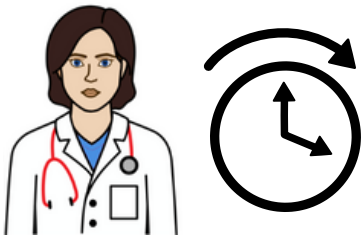

An allergic reaction is when some people get sick from different foods or plants or animals.

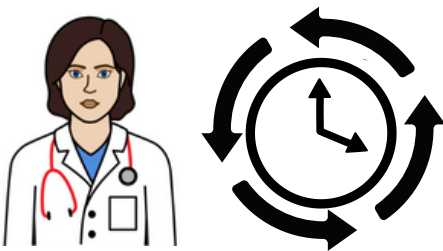

You can take your child to their doctor

If your child **does not** need to go to the emergency department then their doctor should be the first person you see to take care of their health.

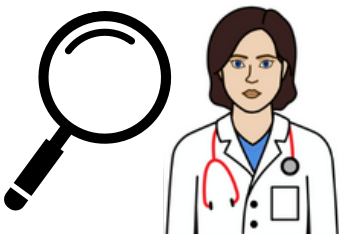

Your child's doctor can help you take care of your child's health for a short time.

They can also help you take care of your child's health for a long time if they need to.

If your child has more than one health problem then their doctor can help to organise care.

If your child does not already have a doctor and you need to find them one then you can

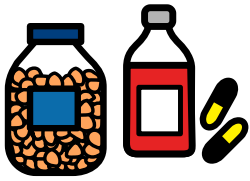

- Visit the Find a Health Service website

findahealthservice.act.gov.au

You can go to or take your child to a pharmacy

When you go to or take your child to a pharmacy you can speak to a **pharmacist**.

A pharmacist can

- give your child medicine

- tell you how you can take care of your child's health problems that may happen a lot

Like

- pain

- a fever

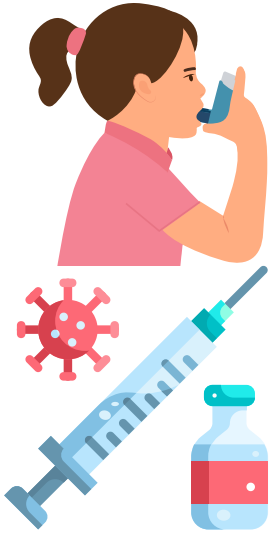

- a rash

- growing teeth

You can go to or take your child to a pharmacy

Like

- **asthma**

- **immunisations.**

Asthma is a health problem that can affect the way children breathe.

Immunisations are needles given to children to stop some health problems from happening in the future.

Not all pharmacies can help you with all children's health problems.

You can get your child other treatment

You can talk to and get help from other people that aren't doctors or nurses to take care of your child's health.

Your child can have **physiotherapy**.

Physiotherapy is help and advice for your child to move their body better and without pain.

Your child can have **nutrition services**.

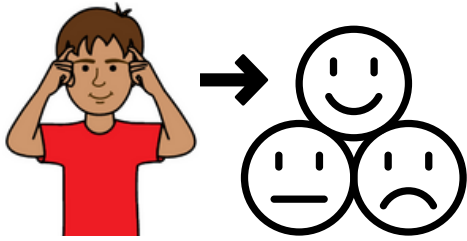

Nutrition services are help and advice about food and eating.

Your child can have **psychological services**.

Psychological services are help for your child's mental health.

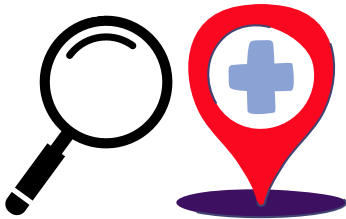

You can get your child other treatment

Mental health is your child's feelings and emotions.

Having physiotherapy or nutrition services or psychological services can help your child to not have health problems in the future.

To find these services in a place that is close you can

- Visit the healthdirect website

[healthdirect.gov.au](https://www.healthdirect.gov.au)

You can come to us

We have lots of different free services to help take care of your child's health.

We have learning programs so that you have the information you need to take care of your child's health.

We have special clinics that your child can go to so that you can take care of all the parts of your child's health.

We do tests and give care to check for and stop some children's health problems from happening in the future.

You can call healthdirect

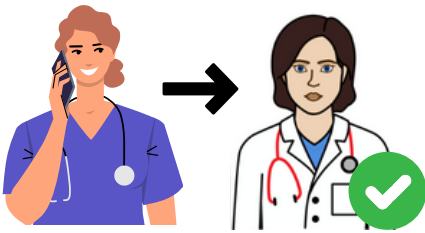

Healthdirect is a phone number you can call if your child is sick and you do not know what to do.

You can call healthdirect on 1800 022 222

The person who will pick up the phone is a nurse.

The nurse will tell you if your child needs to see their doctor.

The nurse will tell you the information you need about the type of care your child needs for their health problem.

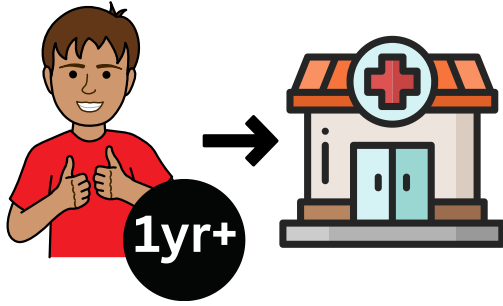

If you need more information about healthdirect you can

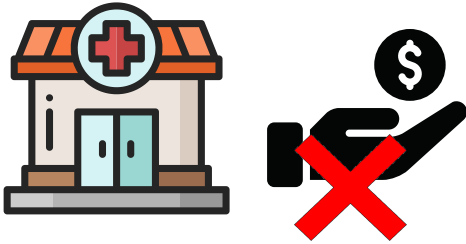

- Visit the healthdirect website

healthdirect.gov.au

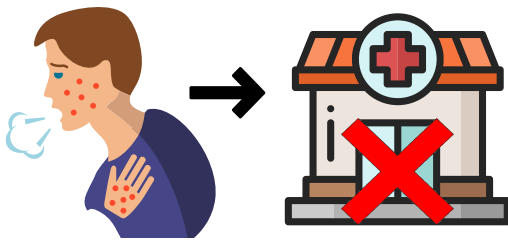

You can go to a Walk-in Centre

If your child is one year old or older then you can go to a **Walk-in Centre**.

A Walk-in Centre is a place where you can get treatment for some health problems for free.

You should **not** go to a Walk-in Centre if your child is very sick or hurt and needs to go to the emergency department.

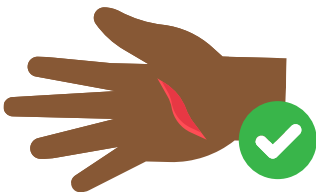

A Walk-in Centre can give treatment or help for things like

- a cold or flu

- an eye infection

- cuts

- bruises

You can go to a Walk-in Centre

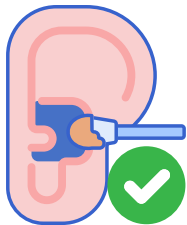

A Walk-in Centre can give treatment or help for things like

- burns

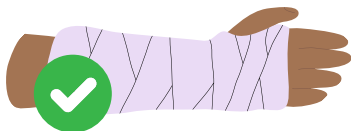

- infections in your child's nose or throat or ear

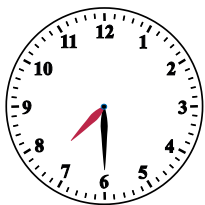

- removing wax in your child's ear

- skin problems

- pain when your child has hurt their arms or legs.

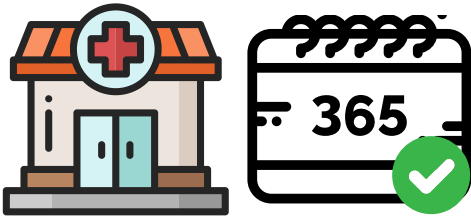

Walk-in Centres open at 7:30 am.

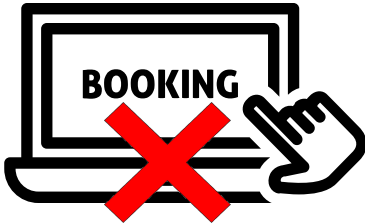

Walk-in Centres close at 10 pm.

You can go to a Walk-in Centre

Walk-in Centres are open every day of the year.

You do not need to make an appointment to take your child to a Walk-in Centre.

If you need more information about Walk-in Centres you can

- Visit the Walk-in Centre website

walkincentre.act.gov.au

Where to find a Walk-in Centre

There are 5 Walk-in Centres in the ACT

- Belconnen Walk-in Centre

56 Lathlain Street

- Inner North (Dickson) Walk-in Centre

Dickson Place

- Tuggeranong Walk-in Centre

The corner of Anketell Street and Pitman Street

- Gungahlin Walk-in Centre

Ernest Cavanagh Street

- Weston Creek Walk-in Centre

24 Parkinson Street

Recognising the first people in the ACT

We recognise that the Ngunnawal people are the group of people who are the **traditional custodians** of the ACT.

Traditional custodians are the people who first lived in and looked after an area.

Traditional custodians in Australia are **Indigenous people**.

Indigenous people are the first people to live in and look after Australia.

We also recognise other people or families who have links to the land in the ACT.

We respect the culture of the traditional custodians and what they have done to look after the land in the ACT.
